

# Earthquakes *and* Structures,

## An International Journal

Volume 12, Number 1, January 2017

### CONTENTS

- Konstantinos Kostinakis** and **Konstantinos Morfidis** (Greece)  
The impact of successive earthquakes on the seismic damage  
of multistorey 3D R/C buildings ..... 1
- Elide Nastri**, **Mariacristina Vergato** and **Massimo Latour** (Italy)  
Performance evaluation of a seismic retrofitted R.C. precast industrial building ..... 13
- Yi Hu**, **Liqiang Jiang** and **Hong Zheng** (China)  
Cyclic tests and numerical study of composite steel plate deep beam ..... 23
- Gholamreza Ghodrati Amiri**, **Ayoub Shakouri**, **Sajad Veismoradi**  
and **Pejman Namiranian** (Iran)  
Effect of seismic pounding on buildings isolated by triple friction pendulum bearing ..... 35
- Gholamreza Abdollahzadeh** and **Hadi Faghihmaleki** (Iran)  
A method to evaluate the risk-based robustness index in blast-influenced structures ..... 47
- Sheng Li** (China), **Hing-Ho Tsang** (Australia), **Yongfeng Cheng** and **Zhicheng Lu** (China)  
Effects of sheds and cemented joints on seismic modelling  
of cylindrical porcelain electrical equipment in substations ..... 55
- Ahmet C. Altunışık** (Turkey)  
Shaking table test of wooden building models for structural identification ..... 67
- Yong Yang**, **Ruyue Liu**, **Yicong Xue** and **Hui Li** (China)  
Experimental study on seismic performance of reinforced concrete frames retrofitted  
with eccentric buckling-restrained braces (BRBs) ..... 79
- Muhammad Khalid Saifullaha** and **Cenk Alhan** (Turkey)  
Necessity and adequacy of near-source factors for seismically isolated buildings ..... 91
- Long L. Song** and **Tong Guo** (China)  
Probabilistic seismic performance assessment of self-centering  
prestressed concrete frames with web friction devices ..... 109
- Carmine Lima**, **Enzo Martinelli** (Italy), **Lorenzo Macorini** and **Bassam A. Izzuddin** (UK)  
Modelling beam-to-column joints in seismic analysis of RC frames ..... 119
- Fabio Mazza**, **Mirko Mazza** and **Alfonso Vulcano** (Italy)  
Nonlinear response of r.c. framed buildings retrofitted by different base-isolation systems  
under horizontal and vertical components of near-fault earthquakes ..... 135

Earthquakes and Structures

Vol. 12, No. 1 (2017)

Subscription information

The **Earthquakes and Structures**, *An International Journal* (abbr: Earthq. Struct. *Int. J.*) is published monthly on 25th day of every twelve months (Inagurated 2010). The basic subscription price (print+e) for 2017 including postage by surface mail is US\$516 for institutional subscription and US\$176 for personal sub. For delivery by air mail, add US\$64. Subscription orders and/or inquiries should be sent to Techno-Press, P.O. Box 33, Yuseong, Daejeon 64186, Korea. Tel: (+82-42) 828-7995, Fax: (+82-42) 828-7997, E-mail: subs@techno-press.com

Aims and Scope

The **Earthquakes and Structures**, An International Journal, focuses on the effects of earthquakes on civil engineering structures. The journal will serve as a powerful repository of technical information and will provide a high-impact publication platform for the global community of researchers in the traditional, as well as emerging, sub-disciplines of the broader earthquake engineering field. Specifically, some of the major topics covered by the Journal include:

- Characterization of strong ground motions,
- Quantification of earthquake demand and structural capacity,
- Design of earthquake resistant structures and foundations,
- Experimental and computational methods,
- Seismic regulations and building codes,
- Seismic hazard assessment,
- Seismic risk mitigation,
- Site effects and soil-structure interaction,
- Assessment, repair and strengthening of existing structures, including historic structures and monuments, and
- Emerging technologies including passive control technologies, structural monitoring systems, and cyberinfrastructure tools for seismic data management, experimental applications, early warning and response

Instructions to Authors

- 1. Submission of the paper**  
Authors are asked to submit manuscripts in PDF (or Latex) format electronically through the Techno-Press Manuscript Upload System (TeMUS) (<http://www.techno-press.com/papers>). Exceptionally, the special issue papers may be directly submitted to the Guest Editor. If you have difficulties in using TeMUS, please contact us at [eas@techno-press.com]. On receiving submitted papers, the system will issue the paper ID and Password to the corresponding author which may be conveniently used to check the status of submitted papers.
- 2. Preparation of the manuscript**  
**General** : The manuscripts should be in English and typed with single column and single line spacing on single side of A4 paper. Submitted papers will be published in the category of regular technical paper only. The first page of an article should contain; (1) a title of paper which well reflects the contents of the paper (Arial, 16pt), (2) all the name(s) and affiliations(s) of authors(s) (Arial, 12pt), (3) an abstract of 100~250 words (Times New Roman, 11pt), (4) 5-10 keywords following the abstract, and (5) footnote (personal title and email address of the corresponding author (required) and other authors' (not mandatory)). The paper should be concluded by proper conclusions which reflect the findings in the paper. The normal length of the technical paper should be about 12-20 journal pages.  
Please refer to Authors' Guide: [http://www.techno-press.com/papers/Authors'\\_Guide\\_201512.pdf](http://www.techno-press.com/papers/Authors'_Guide_201512.pdf) , and Template for the format of the paper: <http://www.techno-press.com/papers/Template.docx>
- Tables and figures** : Tables and figures should be consecutively numbered and have short titles. They should be referred to in the text as following examples (e.g., Fig. 1(a), Figs. 1 and 2, Figs. 1(a)-(d) / Table 1, Tables 1-2), etc. Tables should have borders (1/2pt plane line) with the captions right before the table. Figures should be properly located in the text as an editable image file (.jpg) with captions on the lower cell. All of the original figures and tables are required to be placed at the suitable location in the text.
- Units and mathematical expressions** : It is desirable that units of measurements and abbreviations should follow the System International (SI) except where the other unit system is more suitable. The numbers identifying the displayed mathematical expression should be placed in the parentheses and referred to in the text as following examples (e.g., Eq. (1), Eqs. (1)-(2)). Mathematical expressions must be inserted as an object (set as Microsoft Equations 3.0) for Microsoft Word 2007 and after versions. Image-copied text or equations are not acceptable unless they are editable. The raised and lowered fonts cannot be used for superscription and subscription.
- References** : A list of references which reflect the current state of technology in the field locates after conclusions of the paper. For details to prepare the list of references and cite them in the text, authors are advised to follow the introduction and the sample list in the Authors' Guide of the instruction.
- 3. Review**  
All the submitted papers that have passed the preliminary check by the editors will undergo a rigorous peer-review process to judge their significance and originality. Those papers positively recommended by at least two expert reviewers will be finally accepted for publication in the Techno-Press Journals.
- 4. Proofs**  
Proofs will be sent to the corresponding author to correct any typesetting errors. Alterations to the original manuscript will not be accepted at this stage. Proofs should be returned within 48 hours of receipt.
- 5. Copyright**  
Submission of an article to a Techno-Press Journal implies that it presents the original and unpublished work, and not under consideration for publication elsewhere. On acceptance of the submitted manuscript, it is implied that the copyright thereof is transferred to the Techno-Press. The Agreement of Authorship, Originality, and Copyright Transfer must be signed and submitted.
- 6. Ethics**  
Techno-Press applies research and publication ethics standards based on COPE's International Standards for Editors and Authors (<http://publicationethics.org/international-standards-editors-and-authors>). Violation of publication ethics will result in the activation of COPE flow chart. (<http://home.jeet.or.kr/Flowcharts.pdf>)
- 7. Publication Fee**  
Except for open access articles, there is no page charge or article processing fee for submission and publication in this journal.
