

# Earthquakes *and* Structures, An International Journal

Volume 8, Number 2 February 2015

## CONTENTS

<b>Preface</b> .....	i
<b>S.A. Anagnostopoulos, M.T. Kyrkos and K.G. Stathopoulos</b> (Greece) Earthquake induced torsion in buildings: critical review and state of the art .....	305
<b>M. De Stefano, M. Tanganelli and S. Viti</b> (Italy) Torsional effects due to concrete strength variability in existing buildings.....	379
<b>Melina Bosco, Giovanna A.F. Ferrara, Aurelio Gheresi, Edoardo M. Marino</b> and <b>Pier Paolo Rossi</b> (Italy) Seismic assessment of existing r.c. framed structures with in-plan irregularity by nonlinear static methods .....	401
<b>Jonathan Roy, Robert Tremblay and Pierre Léger</b> (Canada) Torsional effects in symmetrical steel buckling restrained braced frames: evaluation of seismic design provisions .....	423
<b>Jui-Liang Lin, Wei-Chun Wang and Keh-Chyuan Tsai</b> (Taiwan) Evaluating the reliability of using the deflection amplification factor to estimate design displacements with accidental torsion effects .....	443
<b>S.A. Anagnostopoulos, M.T. Kyrkos, A. Papalymperi and E. Plevri</b> (Greece) Should accidental eccentricity be eliminated from Eurocode 8?.....	463

Earthquakes and Structures

Vol. 8, No. 2 (2015)

**SPECIAL ISSUE : BUILDING TORSION IN EARTHQUAKES**

ISSN : 2092-7614(print), ISSN : 2092-7622(online)

# Earthquakes *and* Structures

*An International Journal of  
Earthquake Engineering & Earthquake Effects on Structures*

**Editors-in-Chief**

**S.A. Anagnostopoulos**

University of Patras, Greece

**Jerome P. Lynch**

University of Michigan, USA

**Keh-Chyuan Tsai**

National Taiwan University, Taiwan

Guest Editor:

**S.A. Anagnostopoulos**

University of Patras, Greece

Special Issue on the state of the art  
of earthquake induced torsion in  
buildings and on inelastic torsion

Techno-Press

Volume 8, Number 2, February 2015

Honorary Editor-in-Chief

Prof. Shih-Chi Liu

Division of Civil and Mechanical Systems, The National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230, USA

Subscription information

The **Earthquakes and Structures**, *An International Journal* (abbr: Earthq. Struct. *Int. J.*) is published monthly on 25th day of every twelve months (Inagurated 2010). The basic subscription price (print+e) for 2015 including postage by surface mail is US\$455 for institutional subscription and US\$144 for personal sub. For delivery by air mail, add US\$60. Subscription orders and/or enquiries should be sent to Techno-Press, P.O. Box 33, Yuseong, Daejeon 305-600, Korea. Tel: (+82-42) 828-7995, Fax: (+82-42) 828-7997, e-mail: technop8@chol.com

Aims and Scope

The **Earthquakes and Structures**, An International Journal, focuses on the effects of earthquakes on civil engineering structures. The journal will serve as a powerful repository of technical information and will provide a high-impact publication platform for the global community of researchers in the traditional, as well as emerging, sub-disciplines of the broader earthquake engineering field. Specifically, some of the major topics covered by the Journal include: □ characterization of strong ground motions, □ quantification of earthquake demand and structural capacity, □ design of earthquake resistant structures and foundations, □ experimental and computational methods, □ seismic regulations and building codes, □ seismic hazard assessment, □ seismic risk mitigation, □ site effects and soil-structure interaction, □ assessment, repair and strengthening of existing structures, including historic structures and monuments, and □ emerging technologies including passive control technologies, structural monitoring systems, and cyberinfrastructure tools for seismic data management, experimental applications, early warning and response

Instructions to Authors

1. Submission of the paper

Authors are asked to submit manuscripts in PDF format electronically through the Techno-Press Manuscript Upload System (TeMUS) (<http://www.techno-press.org/papers>). Exceptionally, the special issue papers may be directly submitted to the Guest Editor. If you have difficulties in using TeMUS, please contact us at[[technop8@chol.com](mailto:technop8@chol.com)]. On receiving submitted papers, the system will issue the paper ID and Password to the corresponding author which may be conveniently used to check the status of submitted papers.

2. Preparation of the manuscript

**General** : The manuscripts should be in English and typed with single column and single line spacing on single side of A4 paper. Submitted papers will be published in three categories, i.e., 1) Regular technical paper, 2) Review papers and 3) Discussions. The first page of an article should contain; (1) a title of paper which well reflects the contents of the paper (Arial, 16pt), (2) all the name(s) and affiliations(s) of authors(s) (Arial, 12pt), (3) an abstract of 100~250 words (Times New Roman, 11pt), (4) 5-10 keywords following the abstract, and (5) footnote (personal title and email address of the corresponding author (required) and other authors' (not mandatory)). The paper should be concluded by proper conclusions which reflect the findings in the paper. The normal length of the technical paper should be about 14-20 journal pages.

Please refer to Author’s Guide: [http://www.techno-press.org/papers/appendix/Appendix\\_A.pdf](http://www.techno-press.org/papers/appendix/Appendix_A.pdf), and Template for the format of the first page of the paper: [http://www.techno-press.org/papers/appendix/appendix\\_b.doc](http://www.techno-press.org/papers/appendix/appendix_b.doc)

**Tables and figures** : Tables and figures should be consecutively numbered and have short titles. They should be referred to in the text as following examples (e.g., Fig. 1(a), Figs. 1 and 2, Figs. 1(a)-(d) / Table 1, Tables 1-2), etc. Tables should have borders (1/2pt plane line) with the captions right before the table. Figures should be properly located in the text as an editable image file (.jpg) with captions on the lower cell. All of the original figures are required at the end of the manuscript for reference in editing.

**Units and mathematical expressions** : It is desirable that units of measurements and abbreviations should follow the System Internationale (SI) except where the other unit system is more suitable. The numbers identifying the displayed mathematical expression should be placed in the parentheses and referred to in the text as following examples (e.g., Eq. (1), Eqs. (1)-(2)). Mathematical expressions must be inserted as an object (set as Microsoft Equations 3.0) for Microsoft Word 2007 and after versions. Image-copied text or equations are not acceptable unless they are editable. The raised and lowered fonts cannot be used for superscription and subscription.

**References** : A list of references which reflect the current state of technology in the field locates after conclusions of the paper. For details to prepare the list of references and cite them in the text, authors are advised to follow the introduction and the sample list in the Author’s Guide of the instruction.

3. Review

All the submitted papers will undergo a peer-review process, and those papers positively recommended by at least two expert reviewers will be finally accepted for publication in the Techno-Press Journals or after any required modifications are made.

4. Proofs

Proofs will be sent to the corresponding author to correct any typesetting errors. Alterations to the original manuscript will not be accepted at this stage. Proofs should be returned within 48 hours of receipt.

5. Copyright

Submission of an article to a Techno-Press Journal implies that it presents the original and unpublished work, and not under consideration for publication elsewhere. On acceptance of the submitted manuscript, it is implied that the copyright thereof is transferred to the Techno-Press. The Transfer of Copyright Agreement may also be submitted.

6. Ethics

For the policies on the research and publication ethics not stated in this instructions, International standards for editors and authors (<http://publicationethics.org/international-standards-editors-and-authors>) can be applied. Violation of publication ethics will result in the activation of COPE flow chart. (<http://home.jeet.or.kr/Flowcharts.pdf>)

7. Publication Fee

There will be no page charges and no other fees unless the author wishes arrangements to provide an open access to his article.
